

COLD SPRING HARBOR CFA-PTO

GUIDANCE CENTER

Junior High School

Each grade level is assigned a guidance counselor who will stay with the class for both junior high years.

High School

Students are assigned a guidance counselor in ninth grade. Ideally, this guidance counselor will stay with the student for all 4 high school years. Each guidance counselor has a mix of students from each grade level.

General Info

The door is always open in the guidance office to any parent or student with a concern. On any urgent matter, students are encouraged to come immediately to the office. For general concerns, students need to have a pass from their teacher or to visit the office before or after school, between classes or during lunch. Many concerns parents have can be addressed readily by phone. Please do not hesitate to call. If a personal appointment is needed, it is advisable to call before coming to school to assure that the counselor is available.

For more detailed information regarding the school Guidance and Counseling services please refer to the CSHHS web site.
