

COLD SPRING HARBOR CFA-PTO

HEALTH OFFICE

School Physicals

All entering 7th grade and 10th grade students are required to have a physical examination on file with the health office. Student should have a current annual physical with all updated immunizations. See district calendar for details regarding immunization requirements.

Student Medication

As mandated by the NYS Department of Education, school nurses are NOT permitted to dispense medication without a written order from the prescribing medical doctor and written permission from the parent/guardian. In addition, the medication must be supplied to the nurse. The medication should be in its original container with the student's name, medication and instructions for dispensing on the label. This applies to "over the counter" medications as well as prescribed medications. Forms for the above are available in the nurse's office. If you have any questions call Mrs. Pendel, the school nurse.

Students should never have medication (of any kind) on them personally. If you want your child to have access to OTC medication during the school day, please follow the above procedures. And please inform your student to NEVER give medication to another student - regardless of how harmless they think the medicine is.
