The young alumni shared candid insights about college, emphasizing self-advocacy, time management, resilience, and staying grounded rather than having everything figured out. They spoke honestly about uncertainty, the importance of community, and finding success by being authentic. A shared theme was their deep appreciation for the preparation and relationships they gained at CSH. We would like to thank the following alumni for their time:
 - Hannah Tepper - University of Wisconsin
 - Maya Soskin - University of Florida
 - Joseph Kiely - Binghamton University
 - Kami Cotek - Boston College

 - **Homework club session II** starts in Feb for LHS, please sign up via the link in our bio on instagram.
 - SEPTO has been interested in the benefits of extended recess for students k-12, that we have coined "It's just 5 More Minutes"
 - Current schedule allotted for 20 minutes, but in practice is around 15 minutes "at best" as it is currently combined with a rushed lunch.
 - Surrounding districts including Syosset and Jericho have 25 minute recess periods per conversations held with teachers and administration in those districts
 - In our research we have found a bill in the house and senate (Senate Bill S6858 and Assembly Bill A6939) which include some highlights:
 - Bills ensure that a thirty-minute recess is part of the instructional day rather than an optional or inconsistent practice

- Research consistently shows that daily recess improves physical health, reduces stress, promotes positive peer relationships, increases focus in the classroom, and helps students regulate their emotions.
- SEPTO is deeply interested in this topic as it clearly benefits all students
- CSH schedule and curriculum rightly asks a lot of our students who then go home to attend hours of additional scheduled activities. Their heavily scheduled lives are further impacted by the use of screens and other devices. Recess allows our children the opportunity for unscheduled, free “play” that their development desperately needs.
- Extended recess activity will get our children moving beyond a typical 15 minute session and help foster interpersonal relationships and communication skills that we fear may be lost in the age of screens.
- Recess should never be used as
- SEPTO is also interested in any districtwide initiatives to encourage more time outdoors built inside the current curriculum to align with the district’s “Project Based Learning” practice. LHS has looked into grants to help push this initiative such as outside lunch spaces.
- Handout will be provided that review all the mental health and academic benefits of extended recess
